

User Course

About the Course

This course is for people who will be using the browser based DataShed5 system to access data from their company's DataShed database. It is assumed that participants are familiar basic database principles.

Course structure

The course will take approximately 2.5 hours to complete. The components of the training are;

1. Online introduction with trainer (15 minutes)
2. Complete online training videos and assessment (1 hour 30 mins)
3. Online session with trainer (up to 1 hour)

Participation in this training is mandatory for all licensed users to ensure consistent competency. By the end of the course, participants will gain the confidence and knowledge needed to optimize their use of DataShed5. Successful completion of this assessment is required to receive certification and maxgeo support. Ongoing support and training resources are available to ensure continued success.

At the completion of this course participants should be able to:

- Login, Logoff and change a password to the DataShed5 application.
- View data in Grid format.
- View data in Map format.
- Create and apply data filters
- Configure and produce reports.
- View dashboards.
- Export data in various formats.

About our trainers

Our course leaders are selected from our team of highly skilled data consultants.
